

Cyber Security Program

Protecting the Digital Frontier

Powered by 

Overview:

Prepare your team to safeguard digital assets and protect against cyber threats with our comprehensive Cyber Security Program. This 16-week, hands-on training program, powered by Apprenticeship Now, covers everything from foundational cybersecurity principles to threat detection and mitigation strategies.

Key Topics Covered:

- Introduction to Cyber Security
- Identity and Access Management
- Governance, Risk & Compliance
- Cryptography and Data Security
- Security Operations and Cloud Security

Program Benefits:

- Gain practical, hands-on experience with industry-standard cybersecurity tools.
- Learn to identify, prevent, and respond to cyber threats in real-time.
- Prepare for industry-recognized certifications in cybersecurity.
- Includes an option for a U.S. Department of Labor-recognized apprenticeship.
- Ideal for organizations seeking to build or enhance their cybersecurity teams.

Program Details:

- **Duration:** 16 weeks
- **Schedule:** Two weekday evenings and Saturdays
- **Minimum Participants:** 10 participants required, with an option to add additional participants.

Why Choose This Program?

This program is perfect for organizations looking to build a robust cybersecurity team from the ground up. Participants gain a comprehensive understanding of foundational cybersecurity concepts preparing them to protect your organization's digital assets from day one.
