Data Analytics Program
Turning Data into Insights

Powered by **Data Creative**

Overview:
Unlock the power of data with our Data Analytics Program. This 16-week program, powered by Data Creative, equips participants with the skills to analyze and interpret data effectively, helping organizations make informed, data-driven decisions.

Key Topics Covered:
- Data Analysis with MS Excel and Power BI
- SQL Essentials and Database Management
- Data Visualization Techniques
- Power Platform and Automation Tools
- Fundamentals of Data Science and AI

Program Benefits:
- Learn to analyze and visualize data using industry-standard tools.
- Gain practical skills in data management and interpretation.
- Develop the ability to make data-driven decisions that drive business success.
- Ideal for organizations looking to enhance their data analytics capabilities.
- Includes an option to earn up to 5 industry certifications.

Program Details:
- **Duration:** 16 weeks
- **Schedule:** Two weekday evenings and Saturdays
- **Minimum Participants:** 20 participants required, with an option to add additional participants.

Why Choose This Program?
Perfect for workforce upskilling at both the community and organizational levels, this program equips participants with essential data analytics skills that are immediately applicable in the workplace. With a focus on practical, industry-relevant tools, participants gain the knowledge needed to drive data-driven decisions and enhance their career prospects.
