CYBERPROUD
A TALENT REVOLUTION

Transform your
Tech Career.
Fully Funded–
IT Training!

Powered by Apprentice Now
and Supported by the California
Apprenticeship Initiative

Unlock Your Full Potential!

Join our grant-funded IT skills enhancement program
and gain the technical knowledge and hands-on
experience you need to succeed in the tech industry. This
initiative is part of California's goal to create 500,000 earn-and-learn
opportunities by 2029, preparing you to thrive in the future job market.

Why Upskill with Us?

Cost Efficiency: This grant-funded program
covers all your training and certification fees,
allowing you to upskill without financial
stress.

Skill Enhancement: Master in-demand
certifications like CompTIA A+ or Security+,
making you an immediate asset in the
evolving tech industry.

Academic Advancement: Completing the
program could make you eligible for college
credits, helping you further your education
and career goals.

Personal Development: Develop the tech
skills you need to succeed in cybersecurity,
infrastructure support, and other critical
areas while enhancing your job prospects.

Equity and Inclusion: This program offers
career opportunities to military veterans
and individuals from underrepresented
communities, ensuring equal access to skills
and advancement.

Career Transformation: Since 2020,
we've been transforming careers through
innovative workforce development, bridging
the gap between education and the
demands of the tech industry.

Infrastructure Support and Cybersecurity

Training Phases

Pre-apprenticeship Training: 320 hours of immersive instruction in your chosen tech discipline, conducted virtually over 16 weeks. You'll enjoy a mix of live and self-guided learning with flexible scheduling, including two weekday evenings and Saturdays, enabling you to participate outside of regular working hours.

On-the-Job Training (OJT): 2,000 hours of practical experience applying your newly acquired skills in real-world settings. If you are currently employed, this phase can be integrated into your job role. If not, Cyber Proud will work closely with you and our network of supporting agencies to connect you with potential employers, ensuring you have access to hands-on experience that aligns with your career goals.

Continued Education Training: 144 hours of self-guided instruction focused on achieving industry-recognized certifications, conducted in parallel with the OJT, enhancing both employee profiles and your company's market competitiveness.

Start Your Career Transformation Today!

Take advantage of this fully funded opportunity supported by the California Apprenticeship Initiative (CAI). Join our upcoming training cohort and invest in your future—without the financial burden.
