Application Development and Support Program

Coding the Future

Powered by **apprentice now**

Overview:

Equip your team with the skills to develop cutting-edge software solutions with our Application Development and Support Program. This 16-week program, powered by Apprentice Now, provides participants with comprehensive training in modern software development tools and techniques, preparing them to contribute immediately to your projects.

Key Topics Covered:

- Core JAVA and Backend Development
- Client-Side Technologies and UI Design
- DevOps and Continuous Integration
- Software Architecture and Design Patterns
- Cloud Hosting and Deployment

Program Benefits:

- Learn to build scalable, secure software solutions.
- Gain hands-on experience with the latest development frameworks.
- Develop skills in both frontend and backend development.
- Includes an option for a U.S. Department of Labor-recognized apprenticeship.
- Ideal for organizations looking to enhance their software development capabilities.

Program Details:

- **Duration:** 16 weeks
- **Schedule:** Two weekday evenings and Saturdays
- **Minimum Participants:** 10 participants required, with an option to add additional participants.

Why Choose This Program?

This program is designed for organizations seeking to develop a skilled software development team. Participants are trained in the latest development tools and frameworks, enabling them to contribute to your organization's software projects immediately after completing the program
